### A STUDENT'S IMPRESSIONS OF THE CONFERENCE.

To the old student, Conferences mean even more, we may dare to think, than to the earnest parent seeking after truth—they are meters whereby we measure the growth of that thought into which our training initiated us. Each Conference seems to have a leading idea threading through it. Two years ago right methods of teaching seemed most prominent, this year lessons and habits though noticed as means to an end paled before the end—the achievement of character.
